TROCAR WITH SHEATH – STRAIGHT

SIZE (IN FR)

5,6,7

LENGTH (IN CM)

9,12,15

SET INCLUDES:

SHEATH WITH SIDE HOLES ,
TROCAR NEEDLE .

PRODUCT CODE:

TCS(SIZE)(LENGTH)

EX: CODE FOR ORDERING

TROCAR WITH SHEATH 5FR/ 9CM

CODE: (TCS59)

The One-Step centesis catheter has a low profile, tapered tip, and smooth transitions to decrease resistance for less patient discomfort, while the four large drainage holes spiral around the catheter for maximum drainage. Kink-resistant Material, Keeps catheter open to help maximize drainage Sharp needle and smooth transitions for ease of insertion and decreased patient discomfort.

The one step Centesis Drainage catheter is indicated for percutaneous drainage of fluid such as paracentesis and Thoracentesis procedure.

TROCAR WITH THE SHEATH-PIGTAIL

SIZE (IN FR)

6,7,8

LENGTH (IN CM)

15

SET INCLUDES:

- PIGTAIL CATHETER
- TROCAR NEEDLE,
- BAG CONNECTOR
- THREE WAY STOP COCK.

PRODUCT CODE:

TCSP(SIZE)(LENGTH)

EX: CODE FOR ORDERING TROCAR
WITH SHEATH - PIGTAIL 6FR/ 15CM
CODE: (TCSP615)

The One-Step Centesis catheter has a low profile, tapered tip and smooth transitions to decrease resistance for less patient discomfort. while the four large drainage holes spiral around the catheter for maximum drainage. Pigtail shape reduce drainage hole occlusion. Kink-resistant Material Keeps catheter open to help maximize drainage. Sharp needle and smooth transitions for ease of insertion and decreased patient discomfort.

The one step Centesis Drainage catheter is indicated for percutaneous drainage of fluid such as paracentesis and Thoracentesis procedure.

PLEU TAPP- CENTESIS DRAINAGE CATHETER SET

SIZE (IN FR)

6,7,8

LENGTH (IN CM)

15

SET INCLUDES:

- PIGTAIL CATHETER WITH VALVE,
- TROCAR NEEDLE,
- BAG CONNECTOR,
- THREE WAY STOPCOCK,
- CATHETER RETENTION DEVICE.

PRODUCT CODE:

CDCS(SIZE)(LENGTH)

EX: CODE FOR ORDERING PLEU
TAPP CATHETER 6FR/ 15CM

CODE: (CDCS615)

Valved One-Step centesis catheters are designed with an integrated self-sealing valve to minimize the risk of air entering the pleural space and to prevent fluid leakage during thoracentesis and paracentesis procedures.

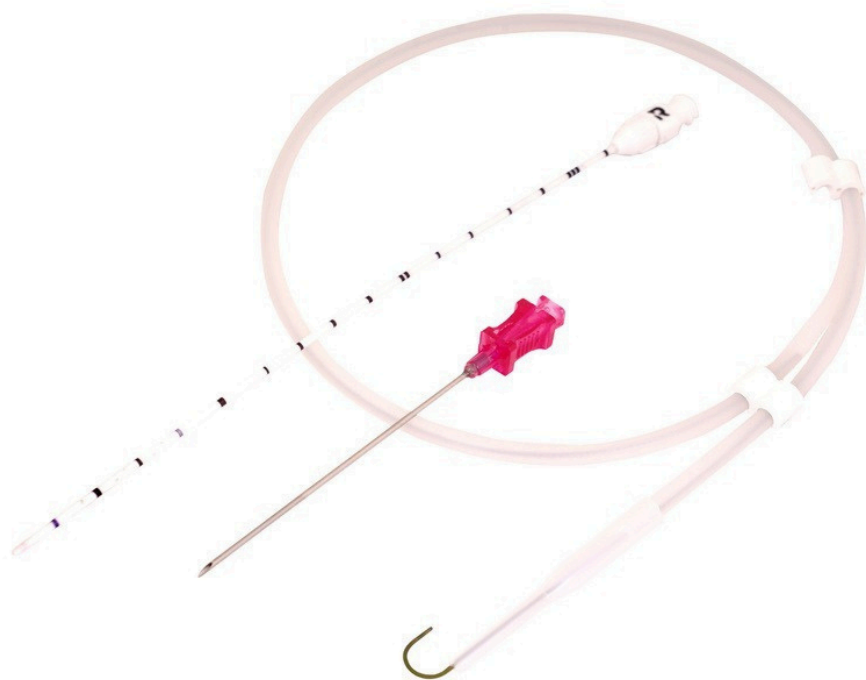

The catheter's low profile, tapered tip, and smooth transitions decrease resistance for less patient discomfort.

Four large drainage holes are present for maximum drainage.

The valved One-Step centesis catheter is designed with an integrated self-sealing valve to minimize the risk of air entering the pleural space.

The set contains a securement device so no need of suturing.

CENTESIS DRAINAGE CATHETER SET

SIZE (IN FR)

5,6

LENGTH (IN CM)

16

SET INCLUDES:

- STRAIGHT TIP CATHETER
- GUIDE WIRE
- INTRODUCER NEEDLE

PRODUCT CODE:

CDC(SIZE)(LENGTH)

EX:

CODE FOR ORDERING

CENTESIS DRAINAGE

CATHETER SET 5FR/ 16CM

CODE: (CDC516)

The Seldinger Centesis Drainage catheter is a short term drainage catheter with straight tip. Indicated for percutaneous drainage of fluid such as paracentesis and Thoracentesis procedure.

MULTIPURPOSES DRAINAGE CATHETER

SIZE (IN FR)
6,7,8,8.5,10,12,14,16,18,20

LENGTH (IN CM)
30

SET INCLUDES:

- PIGTAIL CATHETER.
- PLASTIC OBTURATOR
- BAG CONNECTOR

PRODUCT CODE:
MDC(SIZE)(LENGTH)
EX:
FOR ORDERING 8FR/ 30CM
CATHETER.
CODE: (MDC830)

Used for percutaneous drainage of various of drainage application like biliary , abscess drainage , nephrostomy drainage in Seldinger techniques.

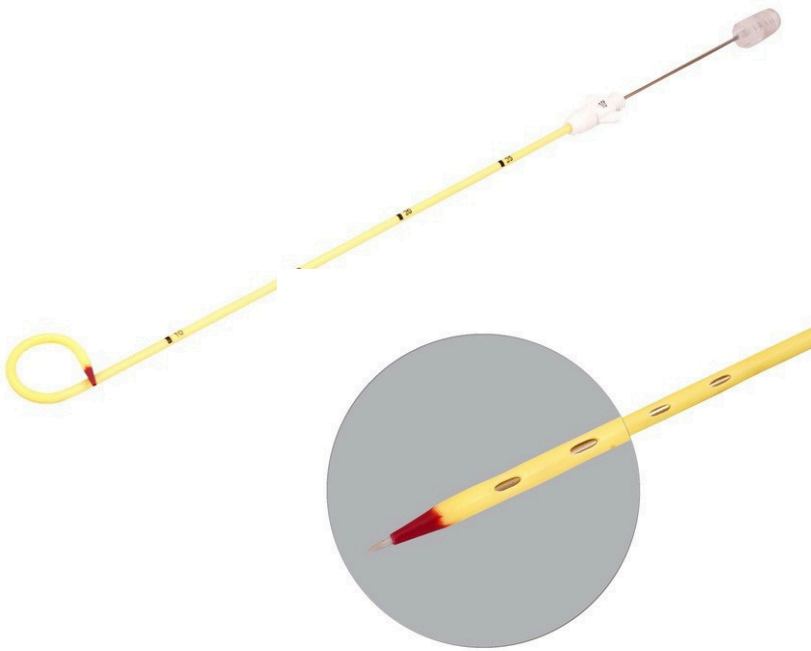

Features: - The pigtail tip configuration helps in the retention of the distal tip .

- Radiopaque for better visualization, It's a very soft non kinking , flexible catheter.

- Smooth insertion in Seldinger techniques,

Available with hydrophilic coating and marking.
Eye holes for better drainage.

MULTIPURPOSE DRAINAGE CATHETER WITH NEEDLE-PIGTAIL

SIZE (IN FR)
6,7,8,8.5,10,12,14,16,18,20
LENGTH (IN CM)
15, 22,25,30
SET INCLUDES:

- PIGTAIL CATHETER .
- TROCAR NEEDLE,
- BAG CONNECTOR

PRODUCT CODE:
MDCN(SIZE)(LENGTH)
EX: FOR ORDERING 8FR/ 25CM
CODE: (MDCN825)

Used for Percutaneous drainage in a variety of drainage application.
This is used for direct puncture technique.

(e.g, Nephrostomy, Billiary and Abscess) by direct puncture.

ADVANTAGE: This pigtail flexi catheter has bigger eye holes with hydrophilic coating and marking.

Pigtail Catheter has a good memory shape.

MULTIPURPOSES DRAINAGE CATHETER SET

SIZE (IN FR)

6,7,8,8.5,10,12,14,16,18,20

LENGTH (IN CM)

15,30,35

SET INCLUDES:

- PIGTAIL CATHETER ,
- SET OF ATTRAUMATIC FASCIAL DILATORS,
- IP NEEDLE - 2PART .
- GUIDE WIRE - J TIP
- SCALPEL, BAG
- CONNECTOR

PRODUCT CODE:

MDCS(SIZE)(LENGTH)

EX: FOR ORDERING

MULTIPURPOSES DRAINAGE

CATHETER SET 8FR/ 30CM .

CODE: (MDCS830)

Used for percutaneous drainage of various of drainage application like biliary , abscess drainage , nephrostomy drainage in Seldinger techniques.

Features: - The pigtail tip configuration helps in the retention of the distal tip .
- Radiopaque for better visualization, It's a very soft non kinking , flexible catheter.

- Smooth insertion in Seldinger techniques, Available with hydrophilic coating and Marking.

Eye holes for better drainage .

OPTIMA DRAINAGE CATHETER - SURE LOOC WITH NEEDLE

SIZE (IN FR)
6,7,8,8.5,10,12,14,16

LENGTH (IN CM)
25,30

SET INCLUDES:

- LOCKING PIGTAIL
- MULTIPURPOSE DRAINAGE CATHETER
- TROCAR WITH NEEDLE
- PLASTIC OBTURATOR
- BAG CONNECTOR

PRODUCT CODE:
OCSLN(SIZE)(LENGTH)

EX:
FOR ORDERING OPTIMA
CATHETER 8FR/ 30CM

CODE: (OCSLN830)

Used for percutaneous drainage of various of drainage application like biliary, abscess drainage, nephrostomy drainage in Direct puncture or Seldinger techniques. THE OPTIMA MULTIPURPOSE Drainage Catheter Features Multiple eye holes for percutaneous Drainage, has a locking pigtail.

- Features** - The pigtail tip configuration helps in the retention of the distal tip. - Radiopaque for better visualization
- It's a very soft non kinking, flexible catheter - Smooth insertion in Seldinger techniques.
 - Available with or without hydrophilic coating. -Eye holes for better drainage.

OPTIMA DRAINAGE CATHETER WITH SURE LOOC SET

SIZE (IN FR)
6,7,8,8.5,10,12,14,16
LENGTH (IN CM)
25,30
SET INCLUDES:

- LOCKING PIGTAIL MULTIPURPOSE DRAINAGE CATHETER, IP NEEDLE,
- GUIDE WIRE, SET OF
- ATRAUMATIC FASCIAL
- DILATORS, CATHETER RETENTION DEVICE
-
- BAG CONNECTOR

PRODUCT CODE:
OCSLS(SIZE)(LENGTH) EX:
FOR ORDERING OPTIMA
CATHETER SET 8FR/ 30CM

CODE: (OCSLS830)

Used for percutaneous drainage of various of drainage application like biliary, abscess drainage, nephrostomy drainage in Seldinger techniques. THE OPTIMA MULTIPURPOSE Drainage Catheter Features Multiple eye holes for percutaneous Drainage, has a locking pigtail and it is a Radiopaque catheter with the radiopaque marker at the end of pigtail.

- Features** - The pigtail tip configuration helps in the retention of the distal tip. - Radiopaque for better visualization
- It's a very soft non kinking, flexible catheter - Smooth insertion in Seldinger techniques.
 - Available with or without hydrophilic coating. -Eye holes for better drainage.

PIGTAIL DRAINAGE CATHETER - FLEXI

SIZE (IN FR)

6,7,8,8.5,10,12,14,16,18,20

LENGTH (IN CM)

30

SET INCLUDES:

- PIGTAIL CATHETER.
- PLASTIC OBTURATOR
- BAG CONNECTOR

PRODUCT CODE:

PDC(SIZE)(LENGTH)

EX:

FOR ORDERING 8FR/ 30CM

CODE: (PDC830)

Used for percutaneous drainage of various of drainage application like biliary , abscess drainage , nephrostomy drainage in Seldinger techniques and Direct Puncture techniques

Features: - The pigtail tip configuration helps in the retention of the distal tip .

- Radiopaque for better visualization, It's a very soft non kinking , flexible catheter.

- Smooth insertion in Seldinger and direct puncture techniques

- Eye holes for better drainage.

PIGTAIL DRAINAGE CATHETER - BLUE

SIZE (IN FR)

6,7,8,8.5,10,12,14,16,18,20

LENGTH (IN CM)

30

SET INCLUDES:

- PIGTAIL CATHETER.
- PLASTIC OBTURATOR
- BAG CONNECTOR

PRODUCT CODE:

PDC(SIZE)(LENGTH)

EX:

FOR ORDERING 8FR/ 30CM

CODE: (PDC830)

Used for percutaneous drainage of various of drainage application like biliary , abscess drainage , nephrostomy drainage in Seldinger techniques and Direct Puncture techniques

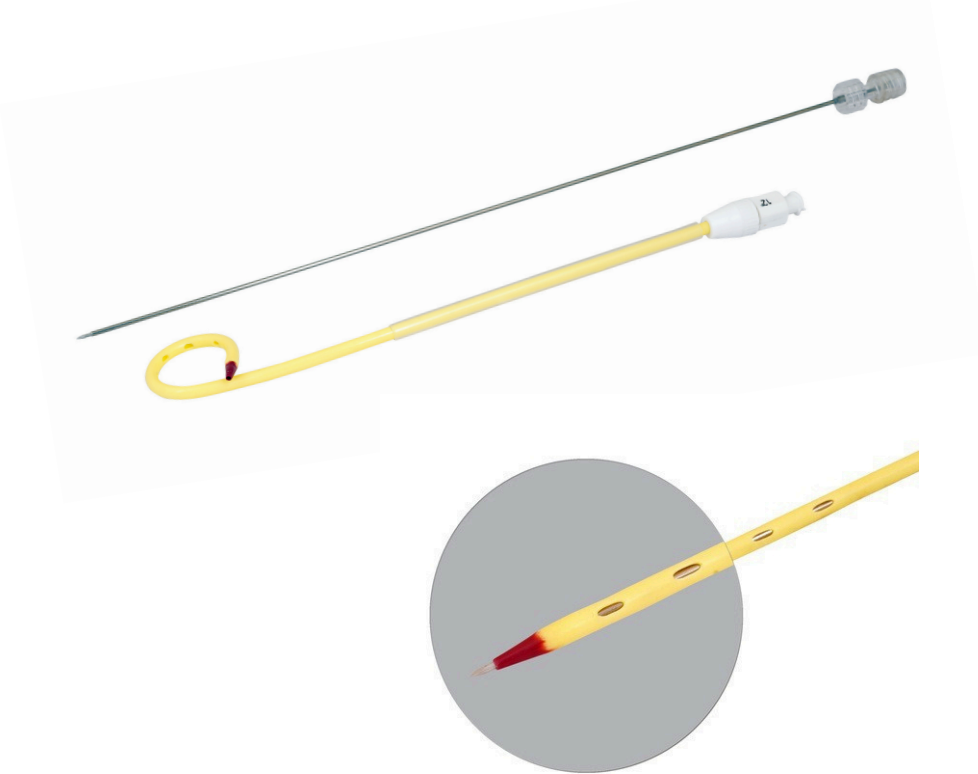

Features: - The pigtail tip configuration helps in the retention of the distal tip .

- Radiopaque for better visualization, It's a very soft non kinking , flexible catheter.

- Smooth insertion in Seldinger and direct puncture techniques

- Eye holes for better drainage.

PIGTAIL DRAINAGE CATHETER WITH NEEDLE - FLEXI

SIZE (IN FR)
6,7,8,8.5,10,12,14,16,18,20
LENGTH (IN CM)
15, 22,25,30
SET INCLUDES:

- PIGTAIL CATHETER .
- TROCAR NEEDLE,
- BAG CONNECTOR

PRODUCT CODE:
PDCN(SIZE)(LENGTH)

EX: FOR ORDERING 8FR/ 25CM
CODE: (PDCN825)

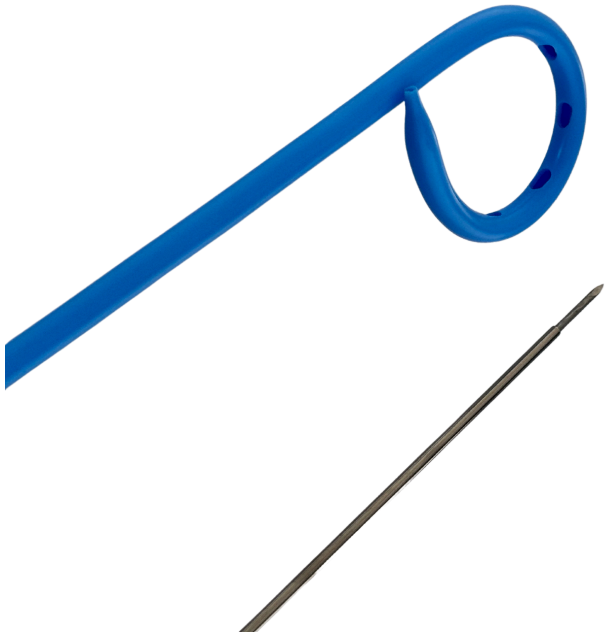

(e.g, Nephrostomy, Billiary and Abscess) by direct puncture.

Used for Percutaneous drainage in a variety of drainage application.
This is used for direct puncture technique.

ADVANTAGE: This pigtail flexi catheter has bigger eye holes

Pigtail Catheter has a good memory shape.

PIGTAIL DRAINAGE CATHETER WITH NEEDLE - BLUE

SIZE (IN FR)
6,7,8,8.5,10,12,14,16,18,20
LENGTH (IN CM)
15, 22,25,30
SET INCLUDES:

Eye holes for better drainage .

FREE-FLOW ULTRA CLEAR PICC LINE CATHETER KIT

SIZE (IN FR)

SINGLE LUMEN - 4F & 5F

DOUBLE LUMEN - 5F

LENGTH (IN CM)

60

SET INCLUDES:

- FREE-FLOW ULTRA CLEAR
- CATHETER,
- MICRO PUNCTURE SET,
- SYRINGE
- CATHETER SECUREMENT
- DEVICE,
- MEASURING TAPE.
- SCALPEL.

PRODUCT CODE:

FFPL(SIZE)(LENGTH)

EX:

FOR ORDERING FREE FLOW
ULTRA CLEAR CATHETER 4FR/
60CM .

CODE: (FFPL460)

PICC LINE - Peripherally inserted central venous catheter. It's generally used to give medications or liquid nutrition. A PICC line can help to avoid the pain of frequent needle sticks and reduce the risk of irritation to the smaller veins in your arms.

Available in single lumen and double lumen.

CHRONIC HEMODIALYSIS CATHETER SET

SIZE (IN FR)
LENGTH (IN CM)

24,28 PRODUCT CODE:
CHCS(SIZE)(LENGTH) EX: FOR
ORDERING CHRONIC
CATHETER 14FR/ 28CM
CODE: (CHCS1428)

The catheter used for hemodialysis is a tunneled catheter because it is placed under the skin.

FEATURES & BENEFIT :

- Smooth tube surface reduce the adhesion of platelets and minimize the risk of thrombosis.
- Enhanced polyester CUFF to secure the catheter and reduce the rate of infection.
- Staggered side hole design to reduce the risk of blood recycle.
- Advance medical polyurethane materials

CHRONIC HEMODIALYSIS CATHETER SET - SYMMETRICAL TIP

SIZE (IN FR)
LENGTH (IN CM)

24,28 PRODUCT CODE:
CHCS(SIZE)(LENGTH) EX: FOR
ORDERING CHRONIC
CATHETER 14FR/ 28CM
CODE: (CHCS1428)

The catheter used for hemodialysis is a tunneled catheter because it is placed under the skin.

FEATURES & BENEFIT :

- Smooth tube surface reduce the adhesion of platelets and minimize the risk of thrombosis.
- Enhanced polyester CUFF to secure the catheter and reduce the rate of infection.
- Staggered side hole design to reduce the risk of blood recycle.
- Advance medical polyurethane materials

MINIMALLY INVASIVE PUNCTURE SET - BILLIARY

SIZE (IN FR)
6

LENGTH (IN CM) 18

SET INCLUDES:

SHEATH WITH DILATOR, GUIDE
WIRE,
CHIBA NEEDLE

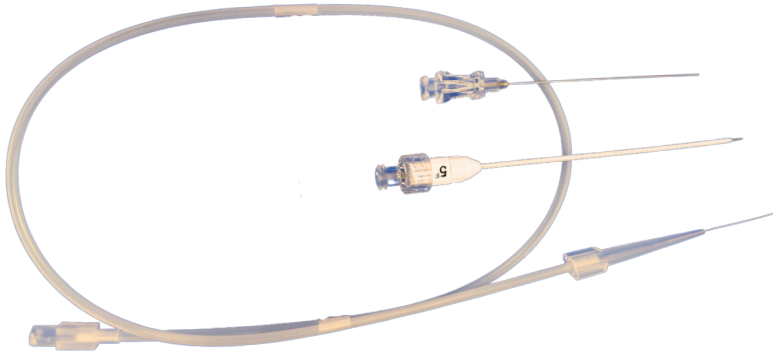

PRODUCT CODE:
MIPS (SIZE)(LENGTH)

EX: FOR ORDERING 6FR/ 18CM .
CODE: (MIPS618)

Used for single-puncture percutaneous access to facilitate placement of a 0.038 inch diameter working wire guide for interventional radiology procedures.

- Sets that feature a radiopaque band help identify the location of the sheath's distal tip for accurate positioning.
- Outer sheath permits advancement of a 0.038 inch diameter wire guide, while the .018 inch diameter wire guide remains in place as a safety wire.
- Sets featuring hydrophilic coating which reduce friction during insertion.
- The set that includes an Echo tip needle which enhances the tip visibility under ultrasound.

MINIMALLY INVASIVE PUNCTURE SET

SIZE (IN FR)

5

LENGTH (IN CM)

9

SET INCLUDES:

SHEATH WITH DILATOR,

GUIDE WIRE

0.018"

INTRODUCER NEEDLE

21G/4CM or 7cm

PRODUCT CODE: MIPS(SIZE)

(LENGTH) EX: FOR ORDERING 5FR/

9CM . CODE: MIPS(59)

The Minimally invasive puncture set contains a 21G introducer needle, a 0.018" guide wire, and an introducer Sheath with dilator

The minimally invasive puncture set is intended for the the placement of wire guides up to 0.038"inch diameter into the peripheral vascular system when a small 21 gauge needle stick is desired

RINGBILL - PTBD CATHETER

SIZE (IN FR)

8,8.5,10,12,14,16

LENGTH (IN CM)

35,45,50 SET

INCLUDES:

- RINGBILL CATHETER,
- PLASTIC OBTURATOR
- BAG CONNECTOR

PRODUCT CODE:

RBDC (SIZE)(LENGTH)

EX:

FOR ORDERING RINGBILL
CATHETER 8FR/ 50CM

CODE: RBDC (850)

Our catheters are designed for the patients' comfort, made with high-grade raw materials. The catheters are used when the patient faces any blockage in the biliary duct. One end of the catheter is attached to your small intestine, and another one comes out of the body, attached to the drainage bag. Percutaneous Transhepatic Biliary Drainage (PTBD) is a medical procedure for diagnosis or treatment of a bile duct obstruction. The objective of the procedure is to locate the obstruction and/or to insert a temporary catheter to drain the bile. We have become a prominent PTBD Catheter manufacturer, supplier, and exporter for two decades with consistent product manufacturing and packaging excellence.

Available with hydrophilic coating. Eye holes for better drainage.

Semi Automatic Biopsy system designed to generate large specimen with minimal bleeding, and successful lymph node biopsy reported.

cleancut sample for histopathologist and other specialist analysis.
Special stylet tip designed for atraumatic penetration.

SURE SHOT – FULLY AUTOMATIC BIOPSY NEEDLE

SIZE (IN GAUGE)

14,16,18

LENGTH (IN CM)

10,16,20,25

PRODUCT CODE:

BNA(SIZE)(LENGTH)

EX:

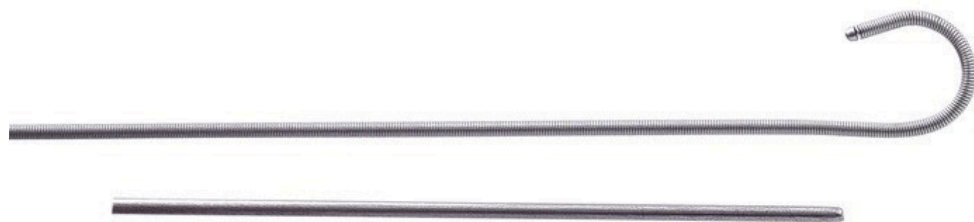

FOR ORDERING 18G/ 16CM

CODE: BNA(1816)

Sure shot is a automatic disposable biopsy needle system.

- It is one hand usage.
- Echogenic tip for ultra sound guided procedure.

PTFE EXTRA STIFF GUIDE WIRE

SIZE (IN INCH)

0.035, 0.038

LENGTH (IN CM)

80,150,260

TYPE:

JTIP AND STRAIGHT

PRODUCT CODE:

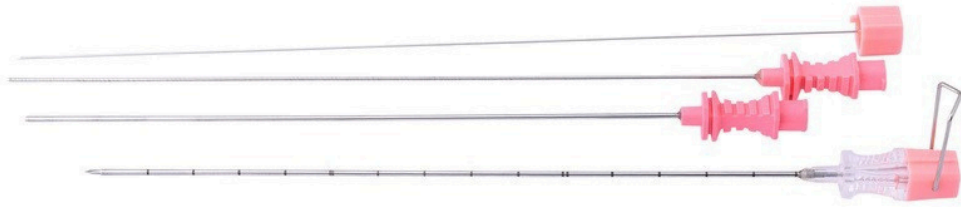

PTFESJ(SIZE)(LENGTH)

EX: FOR ORDERING 0.035 / 80CM
CATHETER.

CODE: PTFESJ3580

Constructed of stainless steel, the J SHAPE flexible tip design is used to gain access to desired anatomical location to assist in the placement, replacement, and exchange of medical devices during procedures. It is designed to facilitate device placement through tortured anatomy.

IP NEEDLE

SIZE (IN GAUGE)
15,16,18

LENGTH (IN CM)
15,20,22
TYPE: 2 & 3 PART
PRODUCT CODE:
IPN2(SIZE)(LENGTH)

EX:
FOR ORDERING 18G/15CM
2Part
CODE: (IPN21815)

IP Needle used for percutaneous Nephrostomy, Cyst Puncture procedures, deep tissue access. These needle products are ideal for various urology medical testing purposes.

The IP Needle is used to puncture the site for non vascular intervention procedure.

CHIBA NEEDLE

SIZE (IN GAUGE)
18,20,22

LENGTH (IN CM)
15,20,25
PRODUCT CODE:
CN(SIZE)(LENGTH)
EX:
FOR ORDERING 18G/15CM.
CODE: CN1815

The Chiba needle is one of the most commonly used biopsy/percutaneous access needles.

It is a two-part hollow needle with a beveled tip angled at 30 degrees. The inner stylet (which is also beveled) is removable. The beveling of the Chiba needle results in superior steering compared to conventional trocar needles.

It is typically between 18-22 G and is primarily used for aspiration tissue biopsy, to aspirate fluid, and to gain percutaneous access to the biliary tree (e.g. PTC) and pelvicalyceal system of the kidney.

INTRODUCER NEEDLE

SIZE (IN GAUGE)

18, 21

LENGTH(IN CM)

PRODUCT CODE:

IN(SIZE)(LENGTH)

EX:

FOR ORDERING 18G/ 7CM

CODE: IN187

Introducer Needles are used to introduce guide wires into a vessel.

Guide Wire Introducer Needles are used to introduce guide wires into a vessel.

This device is Supplied sterile in a peel-open pouch. Intended for single use.

FASCIAL DILATOR SET

SIZE (IN FR)

6-16

LENGTH (IN CM)

20,22,30

PRODUCT CODE:

FDS(SIZE)(LENGTH)

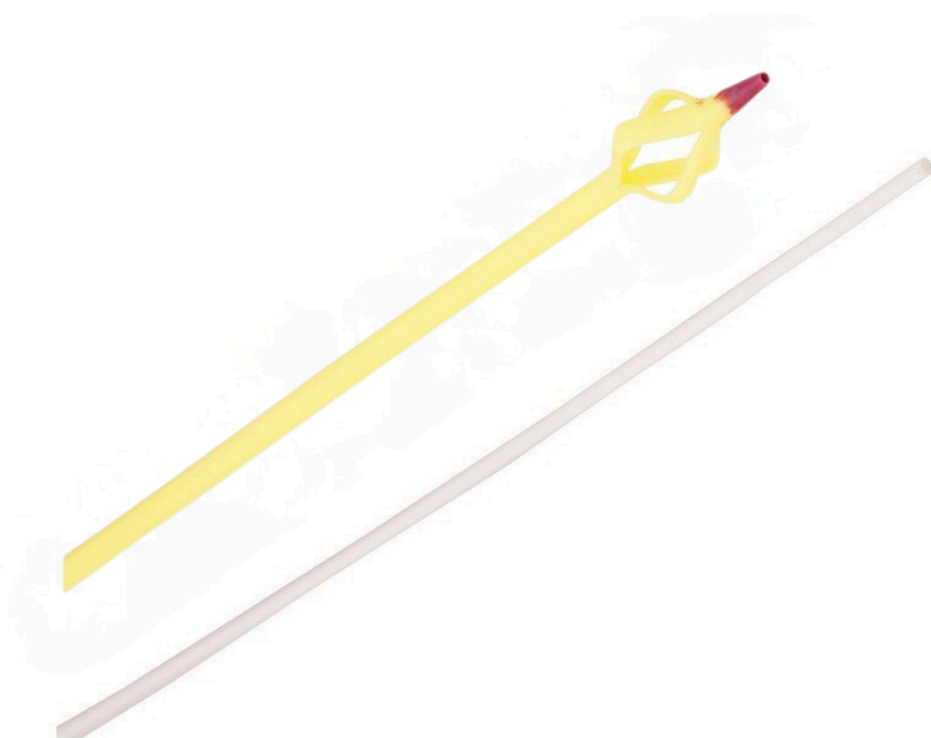

Ex.

FOR ORDERING 6-16 FR/ 22CM

CODE: FDS61622

Used for Fascial Dilation.

MALECOT CATHETER - FLEXI

SIZE (IN FR),
8,10,12,14,16,18,20

LENGTH (IN CM)

25,30

SET INCLUDES:

- MALECOT DRAINAGE CATHETER,
- SET OF ATRAUMATIC FASCIAL DILATORS,
- IP NEEDLE

PRODUCT CODE: MCF(SIZE)

(LENGTH) 8FR/ 30CM.

CODE: (MCF830)

Used for percutaneous drainage of various of drainage application like biliary , abscess drainage , nephrostomy drainage in Seldinger techniques.

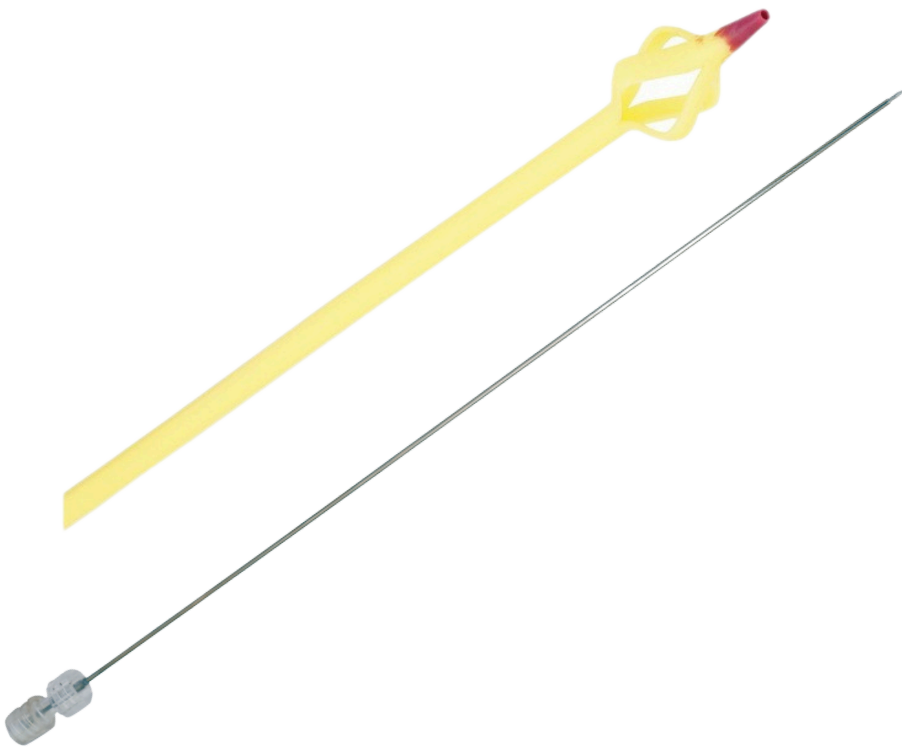

Features: - Integral flower design match with catheter size when closed & cause less trauma during insertion.

- This MALECOT flower design is ideally suitable for drainage of thick viscous fluid.

- Radiopaque for better visualization, It's a very soft non kinking , flexible catheter.

- Smooth insertion in Seldinger techniques, Available with or without hydrophilic coating.

MALECOT CATHETER WITH NEEDLE - FLEXI

SIZE (IN FR)
8,10,12,14,16,18,20
LENGTH (IN CM) 25,30
SET INCLUDES:

- MALECOT DRAINAGE CATHETER
- TROCAR WITH NEEDLE
- BAG CONNECTOR

PRODUCT CODE:
MCNF(SIZE)(LENGTH)
EX:
FOR ORDERING 8FR/ 30CM
CODE: MCNF830

USAGE Malecot Catheter is used to provide drainage in different cases where the fluid is very thick. Malecot wings are employed to provide drainage and promote the retention. it is available in a set for Seldinger technique and the other version Malecot Catheter with needle is there for direct puncture technique.

Advantage : It is a very flexible catheter with a good memory shape

MALECOT CATHETER WITH NEEDLE - FLEX - SET

SIZE (IN FR)
8,10,12,14,16,18,20
LENGTH (IN CM) 25,30
SET INCLUDES:

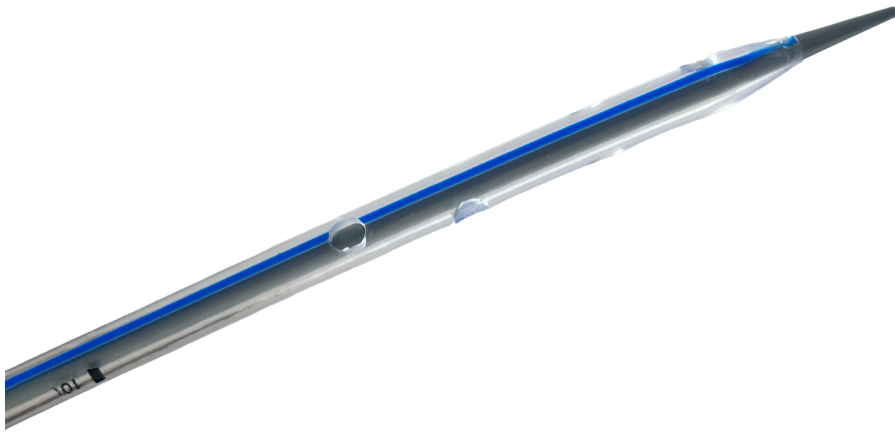

- MALECOT DRAINAGE CATHETER
- TROCAR WITH NEEDLE

TBH - QUICK CHEST DRAINAGE SET

SIZE (IN FR)
12,14,16,18,20,22,24,26
,28,30,32
LENGTH (IN CM)
36cm

SET INCLUDES:

- CO- AXIAL CATHETER INSERTER
- INTRODUCER NEEDLE,
- SUPER STIFF GUIDE WIRE,
- DILATORS,
- SCALPEL

PRODUCT CODE:

TBHS(SIZE)(LENGTH)

EX: FOR ORDERING 24FR/
36CM CODE: TBHS2436

Used for percutaneous introduction of a chest tube for pleural fluid drainage

Features and Benifits:

Introducing the catheter in seldinger technique facilitates controlled with minimally invasive procedure.

-Catheter is available in various of sizes to cater to different patent anatomies.

-Big Side Ports are positioned on the distal end on the chest tube. the most Proximal side port is positioned on the radiopaque stripe to aid in confirming catheter positioning on the X - ray.
